SUMMARY

Finland is a multilingual country. According to the constitution, Finnish and Swedish are, on an equal basis, Finland's national languages and official state languages. According to the Saami Language Act, the Saami languages have official status as minority languages and Saami speakers are granted the right to use their language when contacting the authorities. Both the national languages and Saami are written with variants of the Roman alphabet.

The Finnish alphabet, its pronunciation and its use in geographical names are described, as well as the Saami alphabet and its pronunciation. The Swedish used in Finland does not differ essentially from the Swedish used in Sweden (see Toponymic Guidelines – Sweden).

Authority over place names is divided in Finland. The right and responsibility for providing normative recommendations about place names belong to the Institute for the Languages of Finland. The power of decision concerning administrative names of various categories belongs to the respective administrative bodies but according to the request of the Parliament of Finland (1957) they should consult name experts before making their decisions (the statutory obligation to ask for a statement covers only the names of municipalities). The National Land Survey of Finland and the Institute for the Languages of Finland are jointly responsible for the standardization of names on maps.

The report also gives (1) the names of the administrative divisions and areas of Finland, (2) the names and addresses of place name authorities, (3) lists of common generic terms, adjectives and other words contained in Finnish and Saami place names, (4) a list of common abbreviations of explanatory texts used in large-scale maps, (5) recommendations concerning the use of place names in Finland in different languages, (6) a bibliography of the most important maps, atlases, and place name indexes and (7) a list of gazetteers of Finnish, Swedish, and Saami place names.

1 LANGUAGES

1.1 Introduction

Finland is a multilingual country. According to the Finnish constitution, Finnish and Swedish are, on an equal basis, Finland's national languages and official state languages. According to the Saami Language Act Saami languages (North Saami, Inari Saami and Skolt Saami), have official status as regional minority languages and Saami speakers are granted the right to use their language when contacting the authorities.

According to the Statistics Finland, the population of Finland is 5,635,971 (at the end of 2024) of whom 4,738,386 (84.1 %) speak Finnish, 285 360 (5.1 %) Swedish and 2 077 (0.04 %) Saami as their native language. Speakers of foreign languages amount to 610,148 (10,8 %), the largest groups being speakers of Russian (102,487), Estonian (49,563), Arabic (43,534), Ukrainian (38,850), English (36,971), Somali (26,891), Persian (22,154) and Chinese (19,264).

A municipality (*Fi kunta*, *Sw kommun*) is considered to be bilingual if the speakers of the minority language constitute at least 8 % of its population, or, alternatively, if they amount to more than 3,000. The Council of State determines which municipalities are monolingual Finnish or Swedish and which are bilingual on the basis of the census, which is conducted every tenth year. On the recommendation by the municipal council, the Government may determine (a Government Decree) that the municipality remains bilingual for the following ten year period even if the municipality would otherwise be monolingual. A municipality cannot be declared monolingual unless the proportion of speakers of the minority language has fallen to 6 % or less of the total population. Saami is spoken as a minority language in the four northernmost municipalities of Finnish Lapland (see Map 1).

According to the Language Act, all public notices and proclamations, announcements and other documents given by officials to the public have to be written in the local language in monolingual areas and in both languages in bilingual areas. The language legislation in Finland, and especially the proceedings in the official language aimed at the public, are based on the principle that the two language groups shall be treated equally. The only exception is the Autonomous Province of Åland, where Swedish is the only official language.

The national languages and Saami are written with variants of the Roman alphabet.

Most place names in Finland are Finnish. The Swedish-language population have lived on the west and south coasts and in the southwestern archipelago since the Middle Ages, and the Swedish place names of Finland are concentrated in these areas (see Map 1). Saami names are best preserved in Lapland.

The only names published on official topographic maps, are names which are actually used. In other words, map-makers do not invent new names for places lacking a name, nor do they create unattested name forms by translating or modifying names in another language. Parallel names in bilingual areas are written on maps in both languages, with the majority name mentioned first. However, in Saami areas, the Finnish name is always mentioned first, followed

by possible North Saami, Inari Saami and Skolt Saami names – in this particular order. In monolingual areas, also names in other languages are given if they are in actual use. In bilingual areas, road and street signs and signposts are bilingual, with the language of the majority being placed first. However, they may remain monolingual in monolingual areas which have administratively become bilingual due to a municipal merger.

1.2 The national language Finnish

Finnish, a Finno-Ugric language, uses the following letters of the Roman alphabet:

A a	G g	M m	S s	X x	Ö ö
B b	H h	N n	(Š š)	Y y	
C c	I i	O o	T t	Z z	
D d	J j	P p	U u	(Ž ž)	
E e	K k	Q q	V v	Å å	
F f	L l	R r	W w	Ä ä	

Originally Finnish words do not contain the following letters: *b, c, f, q, š, x, z, ž, å*. The letters in parentheses do not belong to the Finnish alphabet but do appear in loanwords. *w* is alphabetized as *v*, *š* as *s*, and *ž* as *z*. For technical reasons, *š* may be replaced by *sh* and *ž* by *zh* (both digraphs are alphabetized as separate letters).

The vowels *ä* and *ö* represent independent sounds and should be strictly distinguished from the vowels *a* and *o*. These vowels have separate orthographic status in the alphabet.

1.2.1 The spelling of Finnish place names

The following rules are applied to the spelling of Finnish place names and to Finnish exonyms, for instance in the maps compiled by the National Land Survey and in linguistically checked books and other publications.

* Place names and their specific (proper noun) elements begin with a capital letter: *Yli-Ii, Iso Arajärvi*.

* Names with a specific and a generic element are usually written as one word: *Hirvijärvi* ‘Moose Lake’, *Tornionjokilaakso* ‘Tornio River Valley’, *Sibeliuksenkatu* ‘Sibelius Street’.

* Names are written as separate words if (a) the basic element is a compound noun and the preceding qualifier is an inflected adjective or a noun in genitive case: *Iso Ahvenlampi* ‘Big Perch Pond’ (genitive: *Ison Ahvenlammen*), *Vanha Viipurintie* ‘Old Viipuri Road’ (genitive: *Vanhan Viipurintien*), *Nuuksion Pitkäjärvi* ‘Nuuksio Long Lake’, (b) the term designates an artefact and the preceding qualifier is in the genitive: *Saimaan kanava* ‘Saimaa Canal’, *Lokan allas* ‘Lokka Reservoir’, (c) the term is preceded by a hyphenated proper noun: *Ison-Antin tie* ‘Big Antti’s Road’, and (d) the qualifying specific element is a word combination, such as a given name and a surname: *Mikko Määtän vaara* ‘Mikko Määttä’s Mountain’, *Aleksis Kiven katu* ‘Aleksis Kivi’s Street’.

* Names are hyphenated if they are composed of (a) a qualifier preceding a noncompound proper noun: *Iso-Syöte* ‘Big Syöte’, *Pohjois-Savo* ‘Northern Savo’, (b) a non-inflecting qualifier (nouns or prefixes, such as *Ala-*, *Ylä-*, *Etu-*, *Keski-*, *Väli-*; *Pohjois-*, *Etelä-*) preceding a compound proper noun: *Etelä-Konnevesi* ‘South Konne Lake’ or (c) parallel proper nouns: *Helsinki-Vantaan lentoasema* ‘Helsinki-Vantaa Airport’.

For historical reasons, some officially fixed names do not follow these rules, for instance the municipality name *Ylitornio*, which, according to the rules, should be spelled “Yli-Tornio”.

1.2.2 The pronunciation of Finnish place names

The main stress in Finnish words is invariably on the first syllable. A weaker secondary stress occurs on the third or fifth syllable, if it is not the final syllable. Final syllables are always unstressed. Stress is not marked in the written language.

The phonetics of Finnish is simple. Each sound has its own written symbol and in principle each symbol corresponds to one sound only. In standard Finnish, however, the following noteworthy exceptions are encountered: *n* preceding *k* is pronounced [ŋ]: *Helsinki* [helsiŋki]; the long velar nasal [ŋŋ] is represented in writing by *ng*: *Helsingin* [helsiŋŋin] ‘Helsinki’s’. An *n* before a *p* is assimilated to [m]: *Järvenpää* [jærvempæ:]. If the initial element in compound words ends in an *e*, the initial consonant of the following element is usually lengthened *Kortejärvi* [kortejjærvi].

One characteristic of Finnish is vowel harmony. The vowels *a*, *o*, and *u* function in strict opposition to *ä*, *ö*, and *y* and cannot be used in the same non-compound word. The vowels *e* and *i* are, however, neutral and can be used in combination with vowels of either group.

Length distinctions are meaningful between short and long vowels and short and long consonants: *Tulisaari* [tulisa:ri] ‘Fire Island’, *Tuulisaari* [tu:lisa:ri] ‘Wind Island’ Double letters are used to represent the written form of long vowels and consonants: *Tullisaari* [tullisa:ri] ‘Customs Island’.

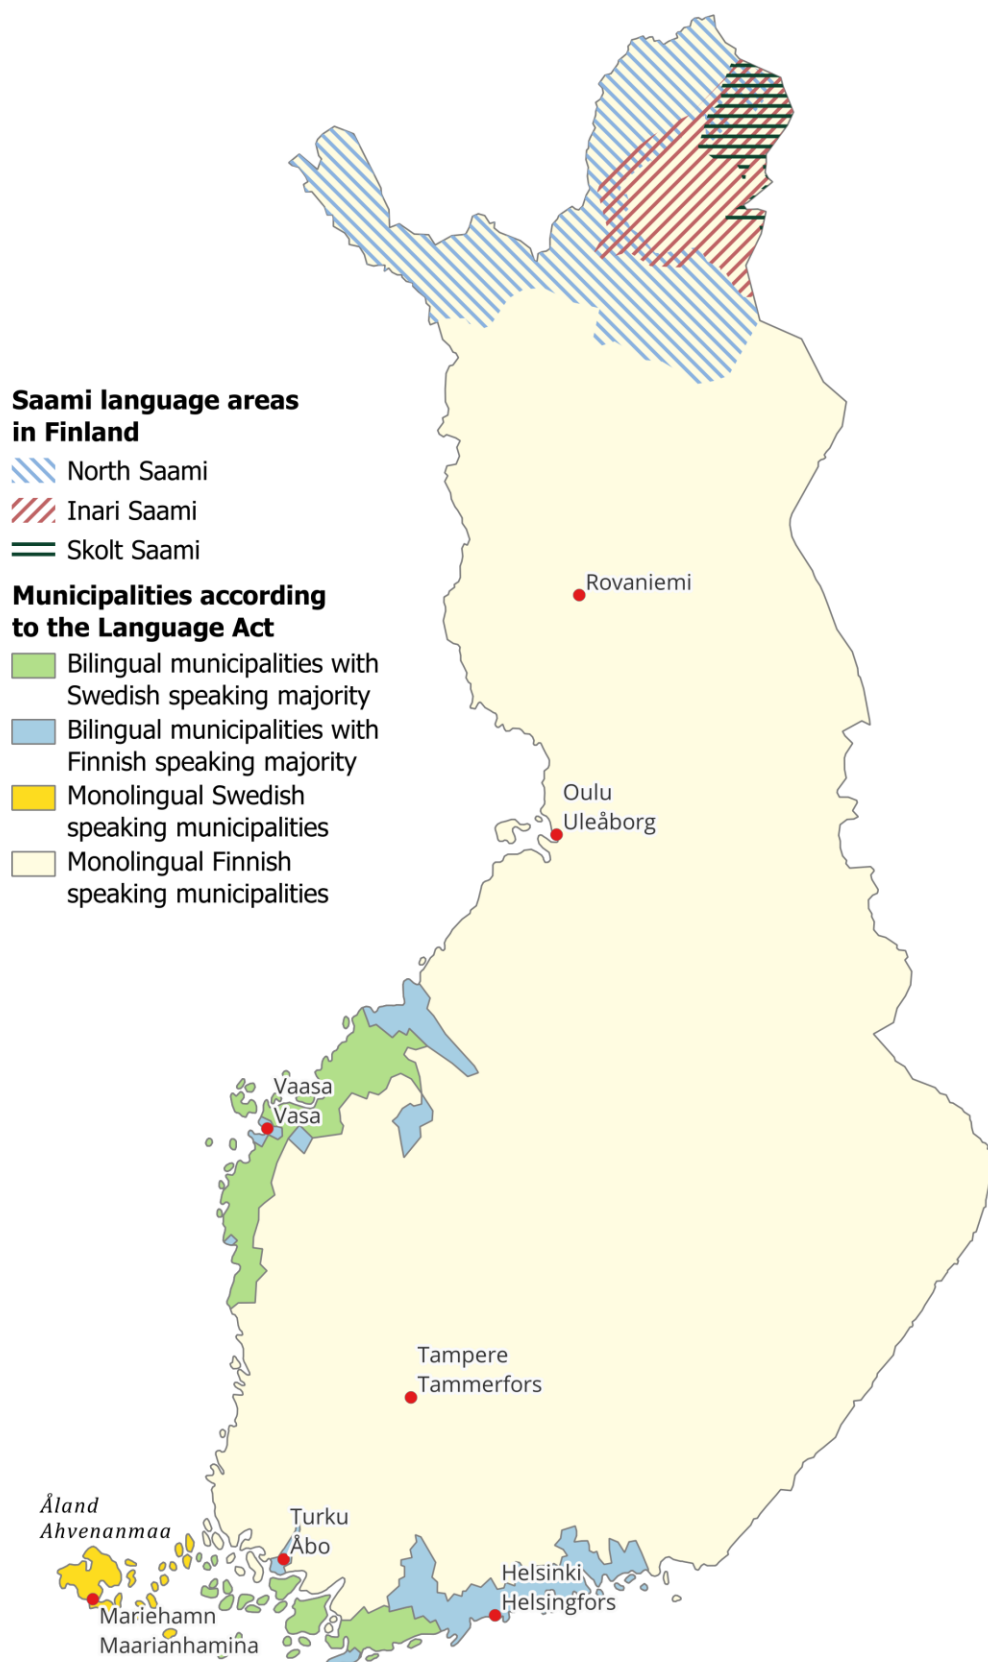

There are 18 diphthongs in Finnish: *ai*, *oi*, *ui*, *ei*, *äi*, *öi*, *yi*; *au*, *ou*, *eu*, *iu*; *iy*, *äy*, *öy*, *ey*; *uo*, *ie*, *yö*. They cannot be divided into separate syllables.

Table 1 gives an approximate picture of the relation between writing and pronunciation in Finnish. The letters in parenthesis are used only in foreign proper nouns and in loanwords. If a pronunciation is not separately marked, the letters have a Finnish pronunciation close to that found in the original language.

Map 1. Languages in Finland

1.2.3 Substrata

One can recognize some linguistic substrata in the place names of Finland. Saami substrata can be found throughout the country. It is also possible to identify a rather large number of substrata of Swedish origin in areas where Finnish is now the dominant language. Conversely, Finnish substrata are found in Swedish-speaking areas.

1.2.4 Dialects

Spoken Finnish is traditionally divided into five to eight dialects, which form two main groups: the western and the eastern dialects. The dialects are mutually comprehensible. The relatively young standard Finnish is based on a combination of dialects.

The spelling of Finnish place names has been standardized throughout the country to conform to the same general linguistic rules. Although standardized names do not usually contain any special phonological features of the dialects, some may reflect regional dialects and have preserved local colour in the form of dialect words and morphological features.

1.3 The national language Swedish

Swedish, a North-Germanic language of the Indo-European family, is the second national and official language of Finland. It is spoken along the coasts of the Gulfs of Finland and Bothnia (see Map 1). The province of Åland (*Fi Ahvenanmaa*) has Swedish as official language.

The Swedish alphabet and the rules of spelling Swedish place names in Finland are similar to those used in Sweden (see Toponymic guidelines – Sweden).

In bilingual areas, names are marked on maps, road and street signs, and signs of a similar nature in both languages, the majority language being placed first. In monolingual areas, the names in other languages are also marked on national maps if they are in actual use.

1.4 The Saami languages

Saami is a Finno-Ugric language distantly related to Finnish. In Finland, Norway, and Sweden, it uses variants of the Roman alphabet. Three mutually unintelligible forms of Saami are spoken in Finland, namely North Saami, Inari Saami, and Skolt Saami (see Map 1).

In 1995, the Finnish Parliament recognized the Saami people as the indigenous inhabitants of their domicile area (Constitution, article 14). They were then granted cultural autonomy within their domicile area (Constitution, article 51 a), i.e. the right to maintain and utilize their languages and customs. The new [Constitution of Finland](#) (pdf) in 1999 (the articles 17 and 121) and the [Saami Language Act](#) (pdf) in 2003 include and define the rights of Saami languages in Finland.

Saami is spoken as a native language by about 2,000 persons or 0.04 % of the population of Finland (2024). Most of them use North Saami but about 300 persons speak Inari Saami and approximately the same number Skolt Saami.

In the [Act on the Saami Parliament](#) (pdf, 974/1995) a Saami is defined as a person who considers himself a Saami, provided:

- (1) That he himself or at least one of his parents or grandparents has learnt Saami as his first language;
- (2) That he is a descendant of a person who has been entered in a land, taxation or population register as a mountain, forest or fishing Lapp; or
- (3) That at least one of his parents has or could have been registered as an elector for an election to the Saami Delegation or the Saami Parliament.

In the same act the Saami Homeland means the municipalities Enontekiö, Inari and Utsjoki, as well as the area of the reindeer owners' association of Lapland in Sodankylä.

The Saami languages have official status in Finland. According to the Saami Language Act the most important government documents, and in the Saami Homeland, all official documents concerning the community itself are translated into Saami. A Saami national has the right to use his or her language before a court of law or in communication with other state authorities. The Lutheran Church has long since used Saami, and this language is taught in schools in the four northernmost municipalities in Finland and the Saami speakers have the right to pass the national matriculation examination in their own language. Saami Radio broadcasts programmes in Saami and Yle (the Finnish broadcasting company) produces TV news in the North Saami language. There are also some periodicals and newspapers published in Saami.

In 1979, the Nordic Saami Council decided to adopt a new, uniform orthography for the North Saami language of Finland, Norway, and Sweden. Since then the Saami names in the maps published by the National Land Survey have been spelled by following these rules.

The North Saami alphabet is as follows:

A a	Ð ð	J j	O o	Ʀ Ʀ
Á á	E e	K k	P p	U u
B b	F f	L l	R r	V v
C c	G g	M m	S s	Z z
Č č	H h	N n	Š š	Ž ž
D d	I i	Ŋ ŋ	T t	

The diphthongs are *ea*, *ie*, *oa*, and *uo*. Inari Saami has also the vowels *â* and *ä* and the diphthongs *iä* (instead of *ea*) and *uá* (instead of *oa*), and it has no *t*. The more complicated writing system of Skolt Saami does not use *á* or *t* but it has *â*, *ǰ*, *ǰ̄*, *ǰ̅*, *ǰ̆*, *ǰ̇*, *ǰ̈*, *ǰ̉*, *ǰ̊*, *ǰ̋*, *ǰ̌*, *ǰ̍*, and *ǰ̎* and the softening mark ('). The diphthongs of Skolt Saami are *uo*, *ue*, *ua*, *uä*, *ie*, *iä*, and *eä*. In Inari Saami and Skolt Saami, long vowels are marked with double letters.

The former version of transcribing Saami place names in Finland was a special adaptation of the Saami orthography of the time. The following examples show how the new orthography differs from the old one:

Spelling before July 1, 1979	Spelling since July 1, 1979
Pissevarri	Bissevárr

Jamehsuolu	Jámetsuolu
Tsuoggajoknjálbmi	Cuokkajohnjálbmi

Table 2 presents the Saami pronunciation. The letters which do not occur in all language forms or which belong to the old orthography have been marked. Diphtongs and consonant clusters do not occur in the table.

2 THE NAMES AUTHORITIES AND THE NAMES STANDARDIZATION

2.1 The names authorities and their tasks

There is no specific law covering place names in Finland. The Finnish Parliament has expressed a wish number 97 (24.5.1957) that in decisions concerning place names, officials should consult experts in onomastics. The wish has been followed by administrative orders by ministries and central boards but because it has no legal force, it has not been very effective. In 1996, the situation was discussed at the Research Institute for the Languages of Finland and a working group was founded to study if a place name law was needed. In 2011, the Institute for the Languages of Finland (formerly Research Institute for the Languages of Finland) and the National Land Survey of Finland made a joint proposal through their respective Ministries (Ministry of Education and Culture and Ministry of Agriculture and Forestry), suggesting that the Finnish Government should take action for the preparation of an Act on Place Names and setting up of an official body in charge of place names. In January 2014, the working group on clear administrative language (appointed by the Ministry of Education and Culture) published a plan of action to improve the language of authorities (Hyvän virkakielen toimintaohjelma, ‘Action Plan for Clear Administrative Language’). It includes a suggestion for enacting an act on place names to clarify the usage of traditional place names and the planning of new official names.

The Institute for the Languages of Finland assumes the right and responsibility for providing normative recommendations for place names. Its Language Planning Department is responsible for Finnish names and its Swedish Department handles Swedish names. The Giellagas Institute at the University of Oulu takes care of Saami names. The recommendations provided by the Institutes are based on linguistics, cultural history, local tradition, and the practical demands of everyday life.

The right to decide on names of administrative units belongs to various administrative bodies. Decisions affecting the names of municipalities are made by the municipal councils, which must consult name experts before changing a name. The names in town and city plans (names of districts, streets, squares, parks, etc.) are confirmed by the Ministry of Environment but the actual naming is under the responsibility of local authorities. The National Land Survey’s regional offices have the final decision on the names of farms and estates given originally by their owners.

The central and regional organizations have the right to decide on names relating to their sphere of activities. Thus, for example, the Posti Group decides on the names of post office districts and the VR-Group Ltd (the railway company) decides on the names of railway stations. The Finnish Transport Infrastructure Agency has the right to make decisions concerning names on road signs.

The Institute for the Languages of Finland acts as an authoritative organ in matters relating to the standardization of place names by providing guidance for administrative bodies and by

checking the Finnish, Swedish, and Saami names on the maps prepared by the National Land Survey. The work is based on onomastic field research conducted since the beginning of the 20th century. As a result of this research, about 2.7 million annotated place name entries based on field-collection and 625,000 name cards collected from old documents have been entered in the archives.

2.2 The choice of place names in different languages

The language legislation of Finland makes no mention of the use of place names in languages other than Finnish or Swedish. Many monolingual administrative areas, such as municipalities, have an official name in both languages, and when drafting documents, one has to use the name in the language of the document. Problems may arise when it is necessary to use other languages – for instances in brochures, reports and maps meant for international use. If the same object has two official names and one wants to present both, one has to choose which to mention first. Another problem is that, due to the nature of the text, one may not want to repeat both names, and a question arises as to which would be most appropriate.

Recommendation of the Language Boards

In January 1997, the Finnish and the Swedish Language Boards of the Research Institute for the Languages of Finland discussed the use of place names in Finland that occur in texts in different languages. Since the equality of the national languages is a central principle in the Finnish Constitution, the Boards gave a recommendation on the choice of place names in different languages.

The recommendation is meant for translators and editors, and it concerns public names, as the names of rural and urban municipalities, counties, regions or provinces, other administrative

units, streets and roads. Furthermore, this recommendation is only meant for current documentary texts.

1. In Finnish, Finnish place name forms are to be preferred, in Swedish, Swedish name forms are to be preferred, and in Saami, Saami name forms are to be preferred.
2. In languages that are closely related to Finnish, name forms in Finnish should be preferred, unless no other established name exists in the languages in question.
3. In Scandinavian languages, Swedish name forms should be preferred, unless no other established name exists in the language in question.
4. In other foreign languages, names of monolingual areas should appear in the form they have in the official language of those areas (for instance Fi *Iisalmi*, Sw *Mariehamn*), unless there are no other established names in the languages in question. In bilingual areas, the names in the majority language should be preferred (for instance Fi *Helsinki, Turku, Vaasa*; Sw *Jakobstad, Nykarleby, Pargas, Raseborg*.)

The names of many historical provinces were introduced into other languages while Finland was part of the Swedish kingdom (until 1809). Thus they have become established names (exonyms) in those languages – for instance, *Karelia, Ostrobothnia* and *Lapland* in English. According to the recommendation, excepting the exonyms, the Finnish forms of the names of Finnish provinces should be used in texts in foreign languages, the only exception being the province of Åland (Fi *Ahvenanmaa*). A gazetteer of Swedish place names in Finland and their Finnish equivalents has been edited by Leila Mattfolk and Maria Vidberg, updated regularly, and available at <http://kaino.kotus.fi/svenskaortnamn>.

6 ADMINISTRATIVE DIVISIONS

6.1 Municipalities

The basic administrative unit of Finland is municipality or commune (Fi *kunta*, Sw *kommun*). In the beginning of 2025, there were 308 municipalities of which 259 were monolingual Finnish, 18 bilingual with a Finnish majority, 16 monolingual Swedish, and 15 bilingual with a Swedish majority. The Council of State decides every tenth year – after a census – which category each of the municipalities belongs to. The last decision is effective from 2023 through 2032. On the recommendation by the municipal council, the Government may determine (a Government Decree) that the municipality remains bilingual for the following ten year period even if the municipality would otherwise be monolingual. (A complement to the Language Act 2014).

Lists 1 and 2 below indicate the language situation of the municipalities in the beginning of 2025.

In List 1 the municipalities are alphabetized according to the Finnish names. Monolingual Finnish municipalities are indicated by the symbol Fi and monolingual Swedish municipalities by Sw. Bilingual municipalities with a Finnish majority are indicated by Fi-Sw and those with a Swedish majority by Sw-Fi. Municipalities with the administrative status *kaupunki* Fi. *stad* Sw. ('township' Eng.) are indicated by an asterisk (*). The term refers to a unit of government, not to an urban settlement. Numbers indicate the regions in which the municipalities are located (see Map 2).

In List 2, the municipalities that have two names are alphabetized according to their Swedish name.

The Saami names of the four northernmost municipalities (Enontekiö, Inari, Sodankylä and Utsjoki) are given after List 2.

List 1. The municipalities of Finland (in 2025) alphabetized according to the Finnish names (except for those having only a Swedish name). The Swedish names are written in *italics* and the majority language names with **bold** letters.

The Saami names of the four northernmost municipalities of Finland (I = Inari Saami, N = North Saami, Sk = Skolt Saami): Enontekiö = Eanodat N; Inari = Aanaar I, Anár N, Aanar Sk; Sodankylä = Soadëgilli N; Utsjoki = Ohcejohka N.

6.2 Historical provinces

There are two kinds of provinces in Finland – historical provinces and modern *regions*¹. The names of the provinces have spread into foreign languages in their Swedish forms at the time when Finland was part of Sweden (before 1809), and they sometimes survive in those languages as exonyms (for instance Karelia, Ostrobothnia, Lapland). The number of historical provinces is nine:

1. Varsinais-Suomi Fi; Egentliga Finland Sw; Finland Proper En
2. Uusimaa Fi, En; Nyland Sw
3. Satakunta Fi, Sw, En
4. Häme Fi; Tavastland Sw; Tavastia En

¹ The Ministry of Interior of Finland translates the term *maakunta* (Fi)/*landskap* (Sw) by *region* (formerly *province*).

5. Savo Fi, En; Savolax Sw
6. Karjala Fi; Karelen Sw; Karelia En
7. Pohjanmaa Fi; Österbotten Sw; Ostrobothnia En
8. Lappi Fi; Lappland Sw; Lapland En
9. Åland Sw, En; Ahvenanmaa Fi

6.3 Regions

Since February 1997, the municipalities of Finland have been grouped into regions (Fi *maakunta*, Sw *landskap*); see Map 2. The names of the historical provinces have been – at least partly – “inherited” by the regions or “new provinces”. The Ministry of Interior ratified their official Finnish and Swedish names in 1998, and donor recommended English and French names in 1999, as follow:

1. Uusimaa Fi, En, Fr; Nyland Sw
2. Varsinais-Suomi Fi, En*, Fr; Egentliga Finland Sw
3. Satakunta Fi, Sw, En, Fr
4. Kanta-Häme Fi, En, Fr; Egentliga Tavastland
5. Pirkanmaa Fi, En, Fr; Birkaland Sw
6. Päijät-Häme Fi, En, Fr; Päijänne-Tavastland Sw
7. Kymenlaakso Fi, En, Fr; Kymmenedalen Sw
8. Etelä-Karjala Fi; Södra Karelen Sw, South Karelia En, Carélie du Sud Fr
9. Etelä-Savo Fi, En*, Fr; Södra Savolax Sw
10. Pohjois-Savo Fi, En*, Fr; Norra Savolax Sw
11. Pohjois-Karjala Fi; Norra Karelen Sw; North Karelia En; Carélie du Nord Fr
12. Keski-Suomi Fi; Mellersta Finland Sw; Central Finland En; Finlande centrale Fr
13. Etelä-Pohjanmaa Fi; Södra Österbotten Sw; South Ostrobothnia En; Ostrobotnie du Sud Fr
14. Österbotten Sw; Pohjanmaa Fi; Ostrobothnia En; Ostrobotnie Fr
15. Keski-Pohjanmaa Fi; Mellersta Österbotten Sw; Central Ostrobothnia En; Ostrobotnie centrale Fr
16. Pohjois-Pohjanmaa Fi; Norra Österbotten Sw; North Ostrobothnia En; Ostrobotnie du Nord Fr
17. Kainuu Fi, En, Fr; Kajanaland Sw
18. Lappi Fi; Lappland Sw; Lapland En; Laponie Fr
19. Åland Sw, En, Fr; Ahvenanmaa Fi

* In the beginning of 2019 the Prime Minister’s Office recommended the English names Southwest Finland, South Savo and North Savo to be used for Varsinais-Suomi, Etelä-Savo and Pohjois-Savo, respectively.

6.4 Regional state administrative agencies and their areas of operation

Since January 2010, the regional administration of the State is divided into 6 *regional state administrative agencies* (aluehallintovirasto Fi, *regionförvaltningsverk* Sw). Their administrative areas are called *areas of operation of the regional administrative agencies* (aluehallintoviraston toimialue Fi, *regionförvaltningsverkets verksamhetsområde / verksamhetsområdet för regionförvaltningsverket* Sw; formerly *provinces, lääni* Fi, *län* Sw). The division into administrative areas is called *the breakdown of areas of operation of the regional state administrative agencies* (aluehallintovirastojen toimialuejako Fi, *indelningen i regionförvaltningsverkens verksamhetsområden / indelningen i verksamhetsområden för regionförvaltningsverken* Sw; formerly *division into provinces, läänijako* Fi, *länsindelning* Sw).

The names of the regional state administrative agencies and their translations given by the Ministry of Finance are following.

6.5. Wellbeing services counties

Since January 2023 the State is divided into 21 wellbeing services counties responsible for organising health, social and rescue services. The division into wellbeing services counties is mainly based on the division into regions, but the region of Uusimaa is divided into four wellbeing services counties. The City of Helsinki and Åland do not form wellbeing services counties but are responsible for organising health, social and rescue services in their areas. The division of wellbeing services counties on the map is available at <https://stm.fi/en/wellbeing-services-counties-on-the-map1>.
